Flexopack participates at Pink@Work 2021

Friday 22 October was the PINK@WORK day, where we proudly wear something pink at work and show that we care!

October is Breast Cancer Awareness Month, the annual campaign to increase awareness of the disease.

Early detection of the disease greatly increases the chances of successful treatment. There are two major components of early detection of cancer: education to promote early diagnosis and screening.

This year, Flexopack participated in the Pink@Work initiative, to remind every woman that prevention is the key to fighting breast cancer!

Flexopack Group is a leading producer of flexible packaging used by major meat and cheese industries globally. Proudly celebrating 40 years of operational excellence, with multiple production facilities and subsidiaries around the world.

With significant presence across the Americas, Europe, Oceania and Asia, Flexopack offers expert advice on providing the best solutions for each customer.
